Oh, you probably do not have permission to see it. Here is the latest (note: it is actually being sent to David by COB today, so it is still being edited/ cleaned up). Barbara or myself can cc you on the "clean" hazard section to David this evening. Do you need the current appendix? Note: the current dose-response section is "very rough".

Thanks, Kate.

Good morning Andrew!

I'm looking for the latest and greatest formaldehyde draft. You mentioned it was on the shared drive... can you please email me the link, or pop by to point me to the right directory/file?

Here is what I was able to find, clearly a fail:

Ex. 6 Personal Privacy (PP)

Thank you!

Kate
